Dear All,

We wanted to provide an update on our NPL broadcast coverage, following ongoing discussions and general feedback around continuing to lift the standard of our matchday production.

We are committed to improving the overall broadcast offering and ensuring our competitions continue to be presented at a level that reflects the quality of football on the pitch.

As part of this, we will shortly be advertising for a number of additional commentators to support our broadcasts. We encourage clubs to keep an eye out for this advertisement and share it with anyone within your networks who may be suitable for these roles.

From Round 12 onwards, we are planning to introduce an additional commentated match in both NPL Men's and NPL Women's competitions. This will increase our total to four commentated matches across NPL each round.

Whilst this is not an insignificant investment, it represents an important step forward. Our longer-term objective is to move towards commentary across all matches, however this would require a significant additional investment and is something that would need to be considered as part of the 2027 budget process.

This is an exciting development and another step in continuing to raise the standard of our broadcast product across the competitions.

We appreciate your ongoing support and look forward to continuing to build this space together.

Please don't hesitate to reach out if you have any questions or feedback, and it will become a standing agenda item on our Standing Committee meetings in 2026.

Kind regards,

Liam Bentley
