Background to Football in Northern NSW

Football is the most popular sport in Northern NSW with over 66,500 participants, a registered player base larger than all other football codes combined.

Community Football continues to boom, with participation levels experiencing significant growth. This growth is highlighted by the increase in female participation of over 23% in the last 5 years.

The sport provides considerable economic, health and social benefits to local communities, with an independent report valuing this contribution at over \$519 million annually to the NSW economy.

Football does, however, face real challenges at all levels of the game to access sufficient quality facilities to meet the needs of the game. Many facilities are over-used, in poor condition, with demand often exceeding supply. Community facilities are suffering from a real lack of investment that threatens the continued growth and future prosperity of the game.

About the Northern NSW Football Facilities Fund

The Northern NSW Football Facilities Fund (**the Program**) is an initiative of Northern NSW Football (**NNSWF**), which has been established to provide funding assistance to football clubs (**Clubs**) to partner with local stakeholders to improve the quality, availability, accessibility and safety of their facilities.

The Program aims to improve football facilities for a variety of benefits including increasing participation, improving safety and security, assisting in building stronger communities through football and improving the overall football experience for all stakeholders.

Project partnerships are encouraged, and identification of all project partners is required (e.g. Local Government Authorities, State Government, schools, other sports, other landowners, local business partnerships).

Applicants need to provide a copy of landowner's consent where the project will occur on land that is not owned by the Club. A declaration from Council is required where there is a partnership with Council. This may include a letter of support, a letter outlining lease arrangements or support for favourable conditions for the Club. The conditions may include a lease extension, exclusivity, or first choice of use of facilities.

Strategic Goals

This Program addresses the following Strategic Goals:

- Significantly increased the presence of females throughout the sport;
- Addressed the reasons within the game's control which are influencing why players are not being retained; and
- Increased the number of community football facilities that are fit for purpose, welcoming and support the growth of the game.

Program Objectives

The objectives of the Program are:
